# NEWPORT DAILY NEWS

TUESDAY MORNING, NOV. 17, 1875.

According to a report made to Congress last winter, by the Secretary of the Treasury, the number of Banks in all the States and Territories was 1,410.

Total amount of capital - - - \$370,834,686  
Circulation - - - 214,778,825  
Specie - - - \$3,359,888  
Loans and discounts - - - 684,456,887

This, we suppose, is a fair and reliable statement of the elements of the Banking System—the bones and flesh and marrow of the paper “currency” of the country. And we must be allowed to say that we think it makes rather a poor show on paper, though not near so bad a one as it has made in its practical operation during the last three months. Here, for instance, is an aggregate circulation set down of 214 millions and upwards, with only 58 millions and a fraction of specie to redeem it. This proportion of specie is too small by half; or, rather, the circulation is as big again as it should be, based on that amount of specie.

Then the amount of capital stock—\$370 millions—is but a little over one-half the aggregate loans and discounts. It is true, these latter items may depend more or less upon the amount of deposits received by the Banks and of these no account is given in the statement we have copied, and which is the only one we have noticed on the subject. But it is quite safe for a Bank to wade so far into deep water as to submerge all its capital, all its specie, and a large proportion of the money left with it by individuals for safe-keeping—the latter, always with the understanding, express or implied, that it is to be forthcoming whenever called for. It seems anything but safe, to us; and the danger certainly is not lessened by the example being universally followed.

That the Banking system in this country is not on the right foundation, and that it ought to be essentially remodeled or wholly superseded, is, we think evident from these two or three considerations, viz:

1st. The paper issues of Banks form, and have long formed, a very considerable proportion of the so-called money, or circulating medium, which is the measure of values of all kinds of property in this country. Not, in our judgment, can we very well do without Banks, or paper money of some convenient kind, by way of facility for the transaction of all kinds of business pursued by our countrymen.

But, 2dly, It is manifest, from late and sad experience, that the paper currency we have is liable to great and sudden fluctuations, both in value and amount; it may be immensely and indefinitely expanded beyond the power of its makers to redeem it, giving unfair and monstrous advantages to Bank owners, officers and favorites, in the purchase of property and the pursuit of lucrative speculations, by which other classes of the community must be correspondingly injured; or, on the other hand, this paper currency may be suddenly and greatly contracted, (as has been so lately and sorely witnessed in the action of the various Banks of the city of New York,) thereby throwing tens of thousands of working people out of employ, and bankrupting half the business men in the community.

3d. These things being so, together with the notoriously defective and slipshod banking system now in operation in many of the States and Territories—defective, we mean, as compared with the improved arrangements in New York and most of the Eastern States—we hazard nothing in affirming that the Banking System of the country, as it now stands, does not, and cannot, in the nature of things, possess that entire and unreserved public confidence which we ought always to be able to repose in what we are obliged to receive as money. People are afraid to take certain bank notes in payment, lest they should be inconvenient, or obliged to submit to a shave, in getting rid of them. This was desperately and extensively true a few weeks since, much more so than now—but it is still true enough, in reference to issues of hundreds of so-called Banks about the country. And every body knows it.

Who, for instance, here in Rhode Island, wants to take Ohio, Illinois or Wisconsin money, in exchange for goods, or property of any kind? No one. There is a great deal of blowing against Rhode Island money, by certain gentry in the great cities—but our money is far better to-day, in New York or Boston, than that of either of the States above named—say, far better than that of ten or a dozen other States, whose respective areas are forty times as large as ours. Yet our local currency is depressed—people who receive it abroad are incommoded and damaged by the depression—the Banks are hampered, the community plagued, property depreciated, mills and factories stopped, laborers out of work and likely to be out of bread. And this is widely the case all over the country—and all for what?

Well, if the light of the sun makes the day, and the tendency of flame is to rise and of water to run down hill, we think the present Banking system, or rather conjunction of systems, in this country is a failure so far as the capacity goes to furnish a safe sound, adequate and reliable paper currency always commanding the public confidence. We must have either a new system, or very essential improvements in the present one.

HAY.—The Portsmouth Chronicle reports sales of hay at \$8 a \$10. In Boston and vicinity hay brings \$16 a \$18 per ton.

## LOCAL NEWS.

The writer of the following communication does not seem to have been aware that the remains taken from the Arnold burying grounds have been restored.

Mr. Littlefield has readily responded to the popular wish in this matter, and has thereby satisfied all that he was not disposed to do violence to public sentiment, he certainly has our thanks for this promptness, and we hope the matter now may be put to rest. With most of the other sentiments of our correspondent we heartily coincide and must beg to offer him our most heartfelt thanks for the V which accompanied his communication.

[For the Daily News.]

MR. HAMMOND.—The recent action of individuals and the city authorities in regard to the removal of the remains at the Arnold burying ground is without a parallel in this community. If the graves of our ancestors and our nearest relatives are to be lawlessly invaded, and the spot which has been hallowed by their memories directed for its purpose, and that too, not for public uses, but for the gratification of individual pride and affluence, it is our city authorities are to be the convincing abettors of the act, and when application is made to them for redress by our most prominent citizens, the petitioners are to be spurned with contempt as from the foot of the throne; what will be the history of our day and generation? What examples shall we hand down to our children, and what can we expect from them other than that the same measure which we have meted out to others, will be meted out to us in return.

We are not an excitable community, but the characteristic conservatism of our people cannot and will not abide such sacrilegious lawlessness, and I am proud to see that the voice of our citizens has been prompt and universal in denouncing both the measure and the men.

The remains should be restored to the place which was appointed for them, and guaranteed to them by an instrument of writing, such as is justly regarded the most sacred of all deeds—a man's last will and testament.

They should be removed not by direction of the Mayor, (one of the legal firm who I understand are counsel for the parties,) not by the city council, who accepted of a lot in the Willow Cemetery, tendered to them for the express purpose of receiving the bodies, and who refused to interdict the exhumation, not with the flourish and parade of city officials, but in a quiet manner, and by the same hands which bore them hence. This is the most befitting atonement which can now be made, and the only one which can silence the demon of Retribution who cries “an eye for an eye, and a tooth for a tooth.”

In justice to the members of the city council, the public should discriminate between those who favored, and those who defeated the petition of Gov. Gibbs and others, asking the interference of Municipal law at the time when the exhumation was commenced. The petition I understand passed the Common Council, and was rejected in the Board of Aldermen by the votes of JOHN W. SHERMAN, SAM'L T. HOPKINS, and Pardon W. Stevens; but for which rejection, the DEAD would still have slumbered in the place of their own selection, and this community would have been spared an outrage upon their feelings. As a constituent of Messrs. Sherman, Hopkins, and Stevens. I have a right to ask, what considerations of duty to the public could induce you to reject the petition of Gov. Gibbs and others?

Did you not hear the communication of Dr. King read?—the same that has since appeared in print.

Could you then be ignorant of the fact that there was a wholesale flagrant violation of law going on, and that the keenest sensibilities of humanity were being shocked and outraged by the act?

Do you feel justified in your own opinions and consciences in the course you have pursued? I ask for an answer; public opinion demands one; the community who respect the memory of their ancestors, and who have seen the remains of their near relatives and friends carted through our streets in rough boxes, brutally, and in violation of all law, demand an explanation and until that explanation is publicly and satisfactorily made you must in a great measure be held accountable for the outrage. I speak not as a prosecutor, but as one who has been dispossessed of his legal and moral rights and who must share with the rest of this community in the common disgrace entailed upon us by your acts.

Who is not ready to say, peace to the ashes of the dead! The monuments which cover thy graves may crumble and decay, aye, and become as the rubbish of the yard, for they are but the work of men's hands but the spot which you once consecrated to your remains, and which is the only earthly inheritance which descends from the living to the dead, let it remain intact and inviolate. Peace to the ashes of the dead.

ANTIQUARIAN.

So.—It may seem strange, but it is a fact, that men generally are much more afraid of women than women are of men; and fearing to break the ice is a fruitful cause of old bachelorism.

The winter bonnets made in Paris, come further forward on the head, and larger than those worn during the summer. A very sensible improvement.

## Correspondence of the Daily News.

NEW YORK, Nov. 13, 1867.

MR. EDITOR.—This “small village,” which, you must know, was taken some years since by the combined hordes of Irish and Dutch—and which still remains in their hands with the Plug-Uglies, Dead Rabbits and other delectable characters,—is rapidly getting its name up, now-a-days, as a place of more frequent, various, and outrageous crime, than any other city whatever, in the civilized world. This is not, indeed, an enviable distinction, but it is a fact. Paris and London, each more populous than New York, (the latter three times as populous,) do neither of them witness anything like the startling mass of crime that is daily and weekly perpetrated in our midst,—and there seems now a prospect rather of a large increase than any diminution for the present. The hard times that have come upon us, will doubtless, by throwing many thousands out of employ, tend to carry want and crime, and shame into hundreds if not thousands of families. Indeed, we can already see, in the records of the police, and the disorderly conduct of many persons concerned in the meetings of the “Unemployed,” the first great drops of the approaching deluge.

The meetings, processions and speeches of the Unemployed have been constantly kept up till yesterday; and the proceedings have been largely characterized by anything except sense or prudence. Among the most thoroughly wooden-headed of their orators, is a Dutchman named John B. Martell, whose “demands” upon the Corporation, in behalf of his associates, are ludicrous enough. John seems to have the idea that it is the appropriate business of a city government to furnish “work for all trades and branches of labor”—to “borrow gold and silver to pay the workmen,” (for, says this modest oracle, *we want nothing but gold and silver in payment of debts!*)—to “buy provisions of all kinds to sell to the workmen,” to “buy lumber and bricks to build houses, and to buy cloth of all kinds, to make coats, pants and vests, so as to give employ to the workmen”—and a plenty more of the same sort. This is what Mr. John B. Martell “demands” of the Corporation—and he “demands” it, he says, by the voice of the workmen, *which is the voice of God!* Whew! what a great prophet have we here, in the person of this thick-skulled Dutch clod-hopper!

Some of the other speakers have openly counselled the plunder of the Banks, flour stores, etc.; and the U. S. officials in Wall-street, getting alarmed at the prospect of an irruption by these Vandals, telegraphed to Washington in regard to the threatening aspects, and a detachment of U. S. soldiers and marines was forthwith ordered to take up their position at the Custom-house, “armed and equipped as the law directs.” The upshot is, that neither the Banks, flour stores, or Sub-Treasury have, as yet, been pillaged—but the Corporation have, perhaps wisely, authorized a loan of a quarter of a million to push on the improvement of the great Central Park, so there is a hope that some hundreds of the idlers will be set to work speedily.

Mr. Perit has decided to accept the office of Police Commissioner, so the Board will now be full; and as he is said to be a man of admirable qualifications, it is supposed the complete organization of the Police force will be accomplished without unnecessary delay. There are several hundred vacancies to fill in the ranks.

The young Cuban, Cheva, who has been on trial for the murder of De Graval at Hoboken, has been suffered to escape by the payment of one thousand dollars’ fine—which, it is said, comes wholly out of his father. As clear a case of wilful murder as one in a hundred. Young Rodgers, who killed Swanson in the 10th Avenue, a few weeks ago, is now on trial at the Court of Sessions. He is proved to have been more or less intoxicated at the time of the murder. Morris O’Connell, the alleged murderer of Teresa Spitzlein, the Swiss widow in Greenwich-street, has been arrested. He is not above 17 years of age. Youthful murderers are becoming alarmingly numerous among us.

The Express “Americans” have nominated James E. Cooley for Mayor, as an opposing candidate to Wood. He is a wealthy man, has traveled in the east, written a book on the Pyramids, and been a former member of the Legislature; but I fear he is not the man, upon whom we can unite the opposition thoroughly enough to overthrow the Wood dynasty. A herculean labor, that!

The City Banks have got tired of taking the State money at par, and have got up some Clearing-house resolutions, proposing to the outside Banks to go back to the old system of providing agencies for redemption here. There is no reason for this, except the intense selfishness and swinishness of the City Banks, and there ought to be a legislative restriction against any such measure. The City Banks have shown themselves unfit managers of the currency, lacking certainly wisdom or integrity—probably both. And their oppression of the Country Banks ought to be stopped. The latter are in general quite as safe and solvent as their more aristocratic fellows of the metropolis—and that is not saying a great deal for them, in view of our experience since August.

Beef, Pork, Sugar, Rice and Tea have

all declined in price, more or less, this week, in spite of the vast accumulations of specie here—the weekly Bank statement showing an aggregate of nearly sixteen and a half millions of Dollars.

The interesting “General” William Walker, of Nicaragua notoriety, has started off, it seems, with another troop of 4 or 500 ragamuffins from the South, for the conquest of Central America. The Presidential proclamations, and vigilance of federal officials, appears to be of small account.

The steamer Arabia, just arrived from Liverpool, brings the important news of the storming and capture of the city of Delhi (India) by the British on the 10th of Sept.

RAMBLER.

BESCHER IN LOWELL.—The Rev. Henry Ward Beecher lectured before the Middlesex Mechanics Association, at Lowell, last evening. His subject was, “Success and Failure.” Huntington Hall was filled to repletion, hundreds of the lovely women of the “Spindle City,” decked in all the paraphernalia of fashion, being present. The lecture was one of the speaker's most able efforts. Man, mentally, morally, physically and socially, and his moral progress as acted on by his physical health, was discussed on in the gentleman's peculiarly able, forcible and eloquent style. The large attendance at the highly instructive course of lectures, now being successfully delivered before the Mechanics Association, shows that the difficulty of the times has not damped the public spirit of the citizens of Lowell, and that they appreciate by their liberal patronage, all endeavors to cater to their intellectual tastes, from which amusement can be derived or knowledge obtained.—Boston Bee.

TURN-DOWN SHIRT COLLARS.—A stand up collar stands for an Englishman—that is, if we may judge from the following remark in the London Times—respecting the remains of the Waterloo bridge murder: “The shirt collar was obviously intended to be turned down over the necktie from which circumstance it is reasonably inferred that the deceased person was not a native of this country.”

RESUMING WORK.—We are glad to hear that the Hampden Mills, Holyoke, have determined to resume full work in a few days. This is encouraging, and we hope other mills may be able to make the same announcement soon.—Springfield Argus.

### HEALTHY BREAD.

JAMES PYLE'S DIETETIC SALERATUS IS among the most important improvements of the present day. Every family through out this land should be acquainted with its intrinsic value, and thereby escape the many evils arising from the use of common Saleratus—the cause of impurities of which are acknowledged destructive to health, by physicians generally. Common saleratus has the elements of caustic alkali, and readily acts on the lining of the stomach, thus deranging the digestive organs and paving the way of Dyspepsia and diseases of every kind. Children are the greatest sufferers and frequently die from infantile diseases, which in former years, were successfully treated, even without medical aid. But here is an article to be relied on.

James Pyle's Dietetic Saleratus, the result of many experiments, is entirely different from everything heretofore in use. The perfection reached in purifying it, makes it as harmless to the stomach as flour itself, while in point of nicety it surpasses the best baking soda, and will make bread, biscuit and cake, beautifully light, nutritious, and suitable for the most dyspeptic stomach. Every lady that tries it will use no other.

BEWARE OF COUNTERFEITS.—Our great success has brought out a multitude of poisonous imitations. The genuine is packed in whole, half, and quarter packages, with the name of James Pyle on each. Manufacturing Depot, 313 Washington St., New York.

## ALPINE HAIR BALM.

Restoring Grey Hair to its original Color. Guaranteed to cure Baldness, Scurf, Dandruff, Itching and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the Hair and gives a natural color without the use of Hair Dye. It keeps the hair from falling off.

Mr. Mason, Sir.—I have found a Hair Restorative in your Alpine Balm, which has not merely changed the gray locks for their original, but has given them a glossy luster, which before they never had.

JEREMIAH S. ROSS, 129 Wickenden street, Providence, May 20, 1857.

Providence, July 30, 1857.  
C. A. P. Mason, Dear Sir.—I am now using the Alpine Hair Balm, which I had of you, with most happy results. On the 30th of June last, my hair (which had been gray for more than twenty years) was fast falling off; but on the third application of the Balm it ceased falling, and is now firmly rooted, and very nearly its original color. By the use of one bottle, I confidently expect a complete, permanent, luxuriant and original head of hair. If every gray haired skeptic would try it, they would not become “living epistles, known and read of all men,” as having used the Alpine Hair Balm. Yours, &c.

JOHN F. TRESCOTT, 227 Westminster street, Providence.

### TESTIMONY OF A LADY OVER 50 YEARS OF AGE.

Mr. Mason, Sir.—I write to inform you how pleased I am with your Alpine Hair Balm. My hair has been gray for a number of years, and I have been obliged to wear a front piece and cap; but have always found a difficulty when having a bonnet on to keep the front piece from working back and showing the white hair. Finally I concluded I would try your Alpine Hair Balm. I used one bottle only and my hair has come back to its natural color, which was brown. My hair is now perfectly free from dandruff and is soft and glossy.

Very respectfully, SARAH LYON.

H. T. HEMMEL.—Dear Sir:—I have been troubled with an affection of the Bladder and Kidneys for over twenty years. I have tried physicians in vain, and at last concluded to give your genuine preparation a trial, as I had heard highly spoken of. It afforded me immediate relief. I have used three bottles, and I have obtained more relief from its effects and feel much better than I have for twenty years previous. I have the greatest faith in its virtues and curative powers, and shall do all in my power to make it known to the afflicted. Hoping this may prove advantageous to you in assisting you to introduce the medicine. I am truly yours, H. T. HEMMEL.

USE THE AMERICAN VEGETABLE HAIR CURLING COMPOUND.

For Curling and Beautifying the Hair and Whiskers.

ALL who wish to improve the health and growth of the Hair and Whiskers, should not be without this compound. It has been fully tested to be the best article now in use. It gives a black and glossy appearance, and after the first application, will curl the hair in beautiful ringlets.

For gentlemen's Whiskers, nothing can be better for curling and making them thick and glossy. As this article is purely vegetable, it will not injure the hair, but will remove the unnatural dryness and brittleness of the hair, which precedes its loss, and will increase its growth and give it a healthy and luxuriant brilliancy.

Many are the testimonials in its favor, and it must be tried to be appreciated. Those wishing a beautiful head of hair, can have it by using the Curling Compound which is put up in a nice box, richly labeled on four sides.—Price \$1.

For the Skin and Complexion, use Dr. Le BARRON'S Lily Cream. This article is composed of the most soothing substances known in the Vegetable Kingdom, and as it contains no poisonous or injurious materials, it can be used at all times and with entire safety, even upon the most delicate skin. Price only 25 cents and 50 cents per bottle.

**A CARD TO THE LADIES.**  
Dr. DRONCA'S Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting irregularity, and removing all obstructions from whatever cause.

All medical men know, as well as many others, that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headaches, Pain in the Side, Palpitation of the Heart, Loosening of the Bowels, and Disturbed Sleep, do not always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive.

Price \$1 per box. For sale at 132 Washington street, corner Church street, and at 12 Washington street, opposite State House. Orders for the trade so addressed will be supplied at lowest manufacturer's prices. Ladies, by enclosing \$1 to R. H. EDDY, at Box 801, New York Post Office, can have the Pills sent (identically) by mail to any part of the country.

**LOTTERIES.**  
**GEORGIA LOTTERIES.**  
THE LOTTERIES of ANDERSON & SON, are chartered by the State of Georgia, and have sworn commissioners appointed by the State, to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawings. Another fact which the managers call attention to, is that all persons have a legal right to send orders for tickets to Georgia, as lotteries are legalized by a special law in that State. A lottery is drawn at Savannah, Ga., about the 15th of every month, and another is drawn at Macon Ga., every Saturday throughout the year.

If a particular class is named, orders are filed by the first drawing to take place after the communication comes to hand. The prices of tickets are from \$1 to \$10. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket and are so simple that none can fail to understand them. There is no combination of numbers, which has so mystified the community for years past. Prizes are in amount from \$10 to \$100,000. Every prize is immediately paid, and no delay in the communication, from which to take place after the communication comes to hand. The prices of tickets vary from \$1.00 to \$20.00. No tickets however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from \$20 to \$100,000. All orders for tickets or packages will receive prompt attention, and the drawings, mailed to all purchasers immediately after it is over. Address T. HUBBARD & Co., No. 30 Fayette st., or Box No. 20, Baltimore Maryland.

**THE** Drawn Numbers of the Maryland Lotteries are published by the State Commissioner in the following Papers, viz. Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D. C.

**LOTTERIES.**—The Lotteries of Samuel Swan & Co., are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the Lotteries of Samuel Swan & Co., are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filed in the drawing next to take place after the same comes to hand. According to the scheme on ticket in every ten must draw a prize. Tickets are \$10; halves, \$5; quarters, \$2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from \$40 to \$50,000; every prize being drawn and result of drawing forwarded to all purchasers.

If a list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers—New Orleans Delta, Mobile Register, Charleston Standard, Nashville Gazette, Atlanta Intelligencer, and New York Weekly Day Book. Write your address plainly, and direct S. SWAN & Co., AUGUSTA GEORGIA.

Prizes paid in full—no percentage deducted from prizes as in other lotteries. All communications strictly confidential.

**PATENT GAS HEATING**  
—AND—  
**GAS COOKING STOVES.**

THE only true principle whereby all unpleasant and injurious odors are avoided. This apparatus is warranted to cook the food for a family at one quarter the cost of doing the same by any other gas stove ever offered to the public.

Secured by S. American, 1 English and 1 French letters patent. Invented and patented by W. F. SHAW.

The First Premium and ONLY GOLD MEDAL ever awarded on GAS STOVES by the Massachusetts Charitable Mechanics Association, was awarded to W. F. SHAW, who also received a medal from the American Institute, N. Y.

These are the only desirable inventions for cooking or heating by gas ever offered to the public, and are the results of upwards of seven years' experiments and experience of the inventor and patentee.

W. F. Shaw's Patent Gas Stove Lamp, or Gas Heater, for boiling small quantities of water by being placed over any burner.

The undersigned having received the Agency for the sale of the above Stoves, offers them to the public as the very best article yet manufactured for cooking or heating by gas. They are economical and free from odor of any kind in operation, bake bread and meats superior to coal ovens, and should have a place in every household.

Satisfactory references from reliable parties using them in this city, can be had upon application at my office, where the public are invited to call and examine the articles.

**MEDICINES.**  
**THE GREATEST WONDER OF THE AGE.**  
**A REMEDY WHICH CURES IN FIVE MINUTES.**—M. LEROUX'S French Cholera Cough Bitters. This truly wonderful scientific compound is recommended by the most eminent and learned physicians of all Europe and America, and enjoys the best reputation of anything similar ever offered. It is without doubt, the best most efficient and generally acknowledged remedy against cholera, dysentery, diarrhoea, and complaints of the stomach in general. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard remedy was introduced in the armies of the Allies in the Crimea, the mortality of the soldiers from cholera and similar diseases was diminished by over 75 per cent.; in consideration of which, the Emperor was presented by the French Government with a gold medal, bearing the inscription, "Hail! M. Leroux, the great chemist and inventor, by whose knowledge our armies are preserved from cholera."

This invaluable preparation is also a remedy for biliousness, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents the heaviness attendant upon eating by persons who are dyspeptic.

In this city, this remedy has been tried with the most undoubted success, and the undersigned can produce the best testimonials of our most celebrated physicians, as to its immediate and complete success, which he will be happy at any time to show to any that may wish to see them.

S. STEINFELD, Sole Agents for the United States, 70 Nassau street, corner of John, N. Y.

**INDIAN RESTORATIVE BITTERS.**  
A GREAT REMEDY FOR FEVERS, DYSPEPSIA, HEADACHE, BOWEL COMPLAINTS, TAIN IN THE STOMACH, CONSTIPATION, JAUNDICE, LIVER COMPLAINT AND ALL RHEUMATISM DIFFICULTIES.

THIS MEDICINE, by the uniform testimony of a great number of intelligent and perfectly credible certificates, is proved to be THE BEST CATHARTIC that has yet been introduced to the public. It is active and powerful, but easy in its operation, and does not operate in the least on the bowels, usually without any pain, and, unlike other cathartics, it does not leave the bowels in a costive state.

Many persons suffer from JAUNDICE—many have an excess of BILIOUS ACTION in the SPRING OF THE YEAR—and are debilitated in consequence. For all this class of diseases this is A Sovereign Remedy. Price 50 cents. Sold by H. H. Young, wholesale and retail agent for Newport, cor of Parade and Thames street. m23

**ASSIGNMENT OF PATENTS.**  
(Late Agent of U. S. Patent Office, Washington, under the Act of 1871.)  
No. 76 STATE, COURTESY WILLY ST., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign rights, to determine the validity or utility of Patents, decided on, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be elsewhere obtained. The testimonials and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patent granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here avoided.

**TESTIMONIALS.**  
During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of procuring Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed, most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE, Commissioner of Patents.  
From the present Commissioner.

Having held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

**ASSIGNMENT OF PATENTS.**  
(Late Agent of U. S. Patent Office, Washington, under the Act of 1871.)  
No. 76 STATE, COURTESY WILLY ST., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign rights, to determine the validity or utility of Patents, decided on, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be elsewhere obtained. The testimonials and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patent granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here avoided.

**TESTIMONIALS.**  
During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of procuring Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed, most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE, Commissioner of Patents.
